

Ingredients: Yeast products (*Saccharomyces cerevisiae*), Fructose, Beet sugar (sucrose), Dextrose, Corn oil, Vegetable fat. Vitamins: A, D3, K3, B1, B2, B12. Biotin, Niacinamide, Calcium D-Pantothenate, Inositol, Zinc, Aromatic substances, Potassium sorbate.

Composition:

Crude protein (min).....	16.3%
Oils and crude fats.....	7.3%
Crude fibre (max).....	0.2%
Crude ash.....	2.7%
Calcium.....	0.39%
Phosphorus.....	0.65%
Sodium.....	0.04%
Lysine.....	0.96%
Methionine.....	0.26%
Aspartic acid.....	49.4mg
Glutamic acid.....	111.8mg
Alanine.....	59.8mg
Cystine.....	10.9mg
Phenylalanine.....	28.6mg
Glycine.....	49.9mg

Lot No:
130819-03

Expiry Date:
08/2020

HOW TO USE:

Open the box when required and reseal if some product remains.

Ensure the availability of clean water and nectar. If there is no nectar, administer a substitute based on simple sugars.

Apply according to the activity of the hive. Consumption is usually 200 grams (7 oz) every 15 days in hives with more than 60% of occupied frames.

Place on top of the brood box, ensuring easy access for nurse bees, especially at low temperatures.

1. As wintering supplement:

After the honey flow has finished, place 1 patty (300 g / 10 oz) on top of the brood frames or 1/2 patty (150 g / 5 oz) for nuclei. Repeat after 7 to 10 days.

2. As a spring supplement:

Place 1/2 patty (150 g / 5 oz) on top of the brood frames. Repeat 3 times, with an interval of 7 to 10 days, depending on consumption, until observing sufficient pollen entry.

vitafeed

PATTY

Food supplement for bees

NET WEIGHT:
3 kg
6 lb 10 oz

INDICATIONS:

- VitaFeed Patty is designed to provide protein and amino acids to supplement natural forage.
- Scientifically formulated on the basis of hydrolyzed beer yeast, rich in vitamins, nucleotides, inositol, glutamic acid and other amino acids, VitaFeed Patty's composition is very similar to pollen, with an optimum particle size to favour its consumption.
- The levels of vitamins of group B have been reinforced to enhance brood development.
- VitaFeed Patty provides prebiotics that help bees to maintain an optimal immune status and allow them to deal with immune problems, in particular those related to the intestine.
- VitaFeed Patty provides energy in the form of monosaccharides that makes the product especially appealing.

- It contributes minerals in organic form, making them much more bioavailable for bees.

Indicated for:

- Development of winter bees
- Spring build-up
- Transportation
- Confinement (due to Asian hornet predation)

STORAGE: Keep VitaFeed Patty in its original packaging in a cool, dry place, protected from direct sunlight and extreme temperatures (no higher than 30°C / 86°F).

Manufacturer: Alltech Spain, S.L.Pol Ind Pozambron s/n. 19115 Almodjura (Guadalajara).
